Primo is a web-scale discovery

You can search in following resources

- Electronic information resources
  articles, contributions from anthologies, books - sources paid by the University (that were necessary to be searched individually till now)
- Books and journals from the BUT libraries
  the entire content of the library catalogue
- Theses and publications from BUT Digital Library
  dissertations, theses, articles, journals published by the University etc
- Selected Open Access information resources

Integration with library catalogue

The integrated interface of Primo also enables the full management of a reader’s account.

You can request and renew the loan of individual titles.
You can view account status, currently borrowed books and fines.
